

Lockwood Mini

Bookshelf Loudspeaker with 10" Dual Concentric Driver
Exceptional Sound Quality for an Immersive Audiophile Experience

The Lockwood Mini, a compact marvel of audiophile engineering, brings exceptional sound quality to your space. This stylish, 2-way stand-mount loudspeaker has received critical acclaim for its accurate and musical performance. Despite its small size, the Lockwood Mini delivers an immersive audiophile experience that will exceed your expectations. Don't let its compact design fool you - the Lockwood Mini packs a powerful punch in terms of sound quality and musicality.

The Mini provides outstanding musical involvement, originally developed to provide accurate and reliable monitoring in smaller locations, with reach-out and touch imaging that is faithful to the original recordings. The Mini delivers outstanding dynamics and is famously used by the BBC, ITV and Neve Electronics

Dual concentric point source drive units have set the standard for natural sound and pinpoint acoustic accuracy for over half a decade. The Lockwood Mini deploys a 10-inch dual driver that is capable of impressive dynamics, sublime midrange, and a beautifully natural high-frequency presentation. Hand-built with premium components, the crossover design of the Lockwood Mini remains true to its original concept, delivering an exceptionally clean signal path.

Unleash the Power of Audiophile Sound with the Lockwood Mini Compact Loudspeaker. For audiophiles who appreciate both style and sound quality, the Lockwood Mini is the perfect choice. This compact loudspeaker delivers exceptional sound performance, despite its small size. With its accurate and musical sound, the Lockwood Mini brings a truly immersive audio experience to your space.
